# Cindy Crawford

*The biggest Tops from  
a top woman and model*

GET TO KNOW THE STAR OF OUR  
NEW CAMPAIGN.

***“I love healthy food but I couldn’t live without chocolate.”***

*Cindy Crawford*

25 years ago, Cosentino launched Silestone®, an innovative material that revolutionized the design of kitchen and bath surfaces around the globe.

To celebrate almost 3 decades of hard work and innovation, we are launching a new campaign in which, once again, we are surrounded by great personalities from the world of sport, culture, kitchen and fashion. Men and women who, thanks to their determination and professionalism, have arrived to the top of their careers and, as complicated as it is,

have managed to stay on top. The “Tops on Top” campaign starts with one of the most well-known and valued Top Models in the world. Surprisingly, Cindy Crawford is a simple, down to earth and very close person. The secret to success for this American supermodel is simple and it is very similar to the Cosentino DNA values: a solid family relation, passion for work and humility.

In an exclusive interview after shooting, the brand-new image of “Tops on Top” tell us about her greatest passions.

# Top Ideas for your Kitchen

*Are you thinking of redecorating your kitchen or creating a more original design? If so, don't miss our innovative ideas for decorating with style and a unique personality.*

## Choose slate paint

Thanks to this type of paint, you can easily redesign your kitchen, using it on walls, furniture and electro domestic appliances alike. Go for traditional colours like green and black or choose innovative options such as yellow.

## Add decorative vinyl

It will allow you to give new life to your kitchen and masterfully update its look. You can use it to redecorate the front of wardrobes and drawers or to change the look of your electrodomeestic appliances.

## Decorate with facades

It's the quintessential work area. Choose materials which allow easy cleaning and maintenance. You can choose the same colour to obtain a visually unified kitchen or another totally different one to create interesting contrasts.

## Choose black for your kitchen

If you like contemporary designs and your kitchen is especially light, choose the colour black to create a modern, sophisticated look. You can also create very interesting contrasts with white.

## Out-of-place objects

Make your kitchen transmit originality and personality by introducing elements which aren't a part of it. Some examples could be a large painting leaning against the wall or a sculpture.

## Mix different styles

Design a unique kitchen by mixing Nordic style and Rustic style: contemporary furniture in a very industrial style space, with appliances on view, brick walls and cement floors.

# Silestone® Eco Line Colour Series

*A Series of Colours Created from Recycled Materials*

The new ECO Line Colour Series is an innovative collection of colours, more than 50% having been made from recycled materials.

- Porcelain tiles, sinks and other decorative elements
- Secondhand window panes, containers and glass bottles
- Porcelain stoneware made from tile fragments
- Petrified ash, combustion residue from blast furnaces.

Even 94% of the water used during the manufacturing process is recycled.

Colours which combine sustainability, design and quality, and which have given rise to a new category in this type of material: "recycled surfaces". The sustainable alternative to surfaces for the architecture and decor existing in the market.

The colours in the ECO Line Colour Series have been created following an exhaustive research and development project carried out by the company, which has reinvested a large percentage of its annual income into the acquisition of new technologies with which it has been possible to develop this new line of recycled surfaces.

All the manufacturing process comply with our strict environmental criteria, such as Cradle to Cradle certification, which not only certifies the product itself, but also everything included in the production process.
